Florida Fish and Wildlife Conservation Commission
Farris Bryan Building
620 S. Meridian Street
Tallahassee, FL 32399-1600

Dear Commissioners,

As you are already well aware, the Lionfish population is a quickly growing epidemic. This problem is threatening the future of our fisheries.

As a dive shop, we try to do our part by hosting tournaments along with providing community education. However, that is just not enough to solve the problem. There must be some kind of incentive for our recreational divers to eradicate the lionfish population.

We support the plan designed by the Emerald Coast Reef Association. We are writing to ask that you will join us in bringing this plan or some version of it to fruition.

Kindest Regards,

Stacie Galbreath
Vice President
